DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/19/2005 has been entered.

Prior Art Cited

2. Karger et al. (U.S. Patent Application Publication 20010033809) discloses a universal interface for continuous on-line liquid sample introduction directly to the time-of-flight mass spectrometer, which can further promote throughput and utility of MALDI-TOF MS, is disclosed. Preferably, the liquid sample includes a matrix, either solid or liquid, for use in matrix-assisted-laser-desorption-ionization, most particularly in a time-of-flight mass spectrometer which can further promote throughput and utility of MALDI-TOF MS. In the method of the invention, the same samples and matrices, both solid and liquid, can be used as in conventional MALDI. In practice of the method of the invention, a solution of sample containing, e.g., peptide and matrix is infused directly into the source chamber of a mass spectrometer at sub-atmospheric pressure, deposited on a moving sample holder, such as a rotating quartz wheel, and desorbed by, e.g., a nitrogen laser. The method of the invention is particularly amenable to

multiplexing, the parallel deposition of multiple samples, e.g., from a capillary array or microchip channels, with subsequent sequential desorption with a scanning laser. This format is particularly useful for high throughput MS analysis. Also disclosed is an off-line deposition chamber and a general method of preparing a sample for analysis that results in the homogeneous deposition of small quantities of sample at improved reproducibility. This format of sample preparation is particularly useful with existing commercial mass spectrometers.

Allowable Subject Matter

3. Claims 39, 40, 41, 42, 47, 63, 50, 51, 52, 58, 59 and 64 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Independent claims 39 and 50 contain allowable subject matter. None of the prior art of record shows or fairly suggests the claimed invention.

Regarding claim 39:

The primary reason for the allowance of claim 39 is the inclusion of the method steps of method for analyzing mass spectra including determining number of signals represents a minimum number of signals for selected cluster and excluding one or more clusters from the plurality of signal clusters from the plurality of signals clusters if the number of signals in a signal cluster is below the

predetermined number of signals. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 40, 41, 42, 47 and 63 are allowed due to their dependency on claim 39.

Regarding claim 50:

The primary reason for the allowance of claim 50 is the inclusion a computer medium including determining number of signals represents a minimum number of signals for selected cluster and excluding one or more clusters from the plurality of signal clusters from the plurality of signals clusters if the number of signals in a signal cluster is below the predetermined number of signals. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 51, 52, 58, 59 and 64 are allowed due to their dependency on claim 50.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
